SAINT MAXIMILIAN KOLBE NET FOR SUNDAY NOVEMBER 8 2026 Log

40 METERS

K7PGD -Paul - Henderson, NV (Via PP)

KE8APO - Dave - Medina, OH

K3QNT - Lloyd - Bedford, PA

It was like the rig wasn't connected! This happens now and then. The band seems to go very long as we were hearing QRM from the South but practically **no** check ins from our regulars. I heard Dave **KE8APO** with his 100 watts barefoot but not very well. We WERE able to hear some overseas short wave from Argentina and India, so I think 40 meters was a little long and not on our side for the net this week. Paul **K7PGD** listened to an SDR receiver in Washington, DC, and reported that both Dave and I were readable. We'll give it another blast next week.

Nov 8, 2026, 8:08 PM

- KR4HSI - Nick - NW Georgia
- KE8APO - Dave - Medina OH
- N3CHE - Fr. Nick - Dallas TX
- K7PGD - Paul - Las Vegas NV
- W1WH - Bill - Mobile in Mass.
- KCØDLP - Vincent - Lawrence KS
- KG5UN - Ed - Gulfport MS
- N2JIE - Tom - S. New Jersey
- K3RMW - Bill - North Carolina
- WØJLG - James - Omaha NE
- KR4GBA - Ed - North Port FL
- NØVYU - Scott - Duluth MN

Good band conditions. They seem to be improving every week and we are starting to get some regulars back again. Nick is on fire as his first contact on HF was some guy in Minnesota running the St. Max Net and he knew about us ahead of time. Good cross section of the country today.

73's N0VYU - Scott

==========

I hope you have a great week! See you on the radio next Sunday

Lloyd -:)
