KD7AAG - Mark - Sandford, NC	

Marty **KK4RF** reported on the funeral in Cincinnati of his older brother. Kevin **W3QD** asked for prayers on behalf of his daughter Olivia. John - **KB3H** is re-locating his shack so we expect to hear him on more often in the future. Conditions were very difficult for me here in Bedford, PA because of a very high noise level typical for this time of year. Hope things improve next week.

Lloyd,

Here is our roster from last night. After struggling along all spring and summer with poor band conditions and lots of noise the band allowed our net to shine last night. I heard every station checking in loud and proud when it needed to happen. Paul had to relay for Malachi as he was just too close to me as his QTH is 426 miles from my QTH. There is a guy real close to him in

lower Michigan that I talk to on 2 meter sideband. Everybody else is about 1000 miles from me and Paul about 1300. I felt really good about the net and walked away with a huge feeling of hope.

My wife and I went to Mass at the Cathedral in Duluth right after the net and sat down looking at the tomb of "Servant of God Joseph Buh" as the Cathedral completely filled with mostly (90 %) young people. Father Michael Schmitz is the Chaplain at the Newman Center at the University of Minnesota Duluth and does the 6:00 pm Mass at the Cathedral and he has a way of filling the house with the students. During communion it seemed like never ending lines of young people coming up. I thought about all the evil in the world and realized that they have nothing compared to what I was seeing before my eyes. Another great feeling of hope. Feeling renewed today ready to take on the challenges that come our way.
