Conditions were far more usable than last week. Many thanks to Kevin **W3QD** for duties as alternate net control. Jim **W3BG** reported that his grandson is returning from a long foreign deployment aboard the USS Abraham Lincoln (CVN-72). Paul **K7PGD** said they are having a cold snap with temperatures in suburban Las Vegas of only 81 degrees. Marty **KK4RF** and XYL Chatty are visiting their son, David who is stationed in Kansas City. They will welcome the arrival of their 5th grandchild. Dave **KE8APO** is enjoying the change in the Ohio weather. Once again Bill **W1WH/M** was putting in a very respectable signal from his car. Hopefully he'll have his main QTH on the air shortly. Nice net. Hope to hear everyone on next week. Last week, **K3QNT** celebrated his 57th anniversary with XYL Jacquie.

She wants me to do an interview sometime. She gave a talk on human trafficking at church two weeks ago. I'll let both of you know the details. I'm sure she has many already scheduled so I am not anticipating anything soon.

73's - God bless.
